HART & VICK'S SEEDS FOR FLORISTS AND MARKET GARDENERS

FREE DELIVERY OF SEEDS

All Flower and Vegetable seeds except Beans, Peas, Sweet Corn and Spinach, will be sent free of charge by Parcels Post, Express or Freight at our option, but if your order amounts to \$20.00 or more we will pay the transportation charges on the entire order. We never pay transportation on Fertilizer, Tools, Seed Potatoes, Onion Sets, Grass or Field Seeds, etc.

TESTED FOR GERMINATION

All of our seeds both vegetable and flower are tested for germination either in the greenhouses at our Fairport Trial Grounds or by a famous State Experiment Station. The result appears on every package of vegetable seed we send out.

PROVEN SEED

Many of our seed stocks of such kinds as Celery, Lettuce, Cauliflower, Cabbage, etc., are tried out by growers the year previous to our offering them for sale, that we may know the results they produce. This is what we call "proven seed." It is a test for purity of strain.

ROCK BOTTOM PRICES

We have made the price of seeds as low as possible and still maintain that high standard of quality so necessary to the success of both Market Gardeners and Florists.

Tops medium and strong enough for bunching. This is the carrot that is shipped from California to eastern markets. ¼ lb., 30c.; lb., \$1.00; 5 lbs. or more at 90c. a lb.			
Morse's Bunching —Tops short; foliage rather coarsely cut; stems medium size and strong. Roots at maturity are 1¼ to 1½ inches in diameter and 8 inches long, almost cylindrical with rounded shoulders, stump-rooted. A splendid bunching carrot for long distance shipping. ¼ lb., 30c.; lb., \$1.00; 5 lbs. or more at 90c. a lb.			

CAULIFLOWER

Early Snowball —We have reason to believe from the reports brought to us by Cauliflower growers who use this seed year after year that it is far above the average Early Snowball seed offered. It matures early and evenly. The pure white heads are remarkable for their great depth and unexcelled white color and do not become "soft" or "ricy" and you will not find any with green leaves in them. ½ oz., 85c.; oz., \$1.45; ¼ lb., \$5.50; lb., \$20.00.			
Improved Super Snowball —A new variety making a very large, deep, solid, snow white head. The heavy upright growing leaves are very numerous and being close together force the small inner leaves to curl over and protect the head. Most cauliflower growers are always looking for something a little better. Here it is. ¼ oz., 75c.; ½ oz., \$1.35; oz., \$2.25; ¼ lb., \$8.00.			
Erfurt Earliest Dwarf	½ Oz. \$.85	Oz. \$1.45	¼ lb. \$5.50
Danish Giant —Dry Weather	.85	1.45	5.50
Italian Purple —Very early strain50	.95	3.45
Snowdrift —A few days later than Snowball. Large, solid deep headed. Several Cauliflower growers have told us it is the best they have ever raised. ¼ oz., 45c; oz., \$1.45; ¼ lb., \$5.50.			12.25

CELERY

Golden Pascal—A yellow celery with the shape and quality of green celery. Stems are rather narrow but very thick and rounded and of excellent length, the edible portion usually runs from 9 to 10 inches long. Matures about the same time as Dwarf Golden Self-Blanching. Oz., \$1.00; ¼ lb., \$3.50; lb., \$12.00.

Golden Plume (Wonderful)—In our opinion this is the best early yellow celery and our Special Strain as fine as any in the country. The stalks are large, thick and solid, and the edible portion unusually long. The plants are compact, full-hearted and blanch readily. We are very proud of this Special Strain of Golden Plume. We know it will please the most critical celery grower. We offer two types of this celery, **Tall Golden Plume** and **Medium High Golden Plume**. Oz. 65c.; ¼ lb., \$2.25; lb., \$8.00.

Golden Self-Blanching. The Old Dwarf Growing, Long Keeping Kind—This is the most popular late variety. The stalks are thick and solid and the stocky plants have large, solid hearts. Celery growers have found our strain of this kind very good. We can fully recommend it to you. Oz., 65c.; ¼ lb., \$2.25; lb., \$8.00.

Utah or Salt Lake—A new green celery. Sturdy, compact plants, exceptionally solid with broad, thick, rounded stems, crisp and of very high quality. The plants are of medium height and have a heavy heart. Oz., 65c.; ¼ lb., \$2.25; lb. \$8.00.

READ THIS ARTICLE TAKEN FROM BULLETIN NO. 122 OF THE NEW YORK STATE COLLEGE OF AGRICULTURE

"A few houses are now stamping stock numbers on all packages that go out. This marks a real advance in seed merchandising. Seed users should make record of these stock numbers, and observe type and performance very carefully. Future seed orders may then be placed, with both buyer and seller assured that they are talking about the same stock as well as the same variety. Your reference to the mark on the package you received last season tells the seedsman what he sent you and he is guided accordingly in filling your order for this year."

You will find stock numbers on every package of vegetable seed you get from Hart & Vick. Keep a record of them for future seed orders.

Mountain Danver's—Our special strain of seed of this early Yellow Globe is grown for us in the mountains of Colorado. Riverside Sweet Spanish—Riverside Sweet Spanish is a very large onion, running about 4 inches in diameter, very heavy, true globe shaped, with a light golden colored skin and pure white flesh of mild, sweet flavor. Requires a longer growing season than most others. Oz., 20c; $\frac{1}{4}$ lb., 60c; lb., \$2.00; 5 lbs. or more at \$1.85 per lb.

Southport Yellow Globe—A great yielding, fine keeping, large, rich orange-yellow skinned onion, slightly deeper than it is broad. In wet seasons the necks are apt to become thick. Oz., 15c; $\frac{1}{4}$ lb., 50c; lb., \$1.85; 5 lbs. or more at \$1.70 per lb.

Ohio Yellow Globe—The bulbs are large, of oblong globe shape at the upper half and a trifle flattened at the base. The flesh is firm and hard and the skin deep yellow. Oz., 15c; $\frac{1}{4}$ lb., 50; lb., \$1.85; 5 lbs. or more at \$1.70 per lb.

HART & VICK'S SEEDS OF ANNUAL FLOWERS

Where quantities smaller than Trade Packages are wanted we can supply retail packages as offered in our Retail Seed Book at a discount to Commercial Growers of 25%.

Seeds of Perennial Flowers described on Pages 14-15.

We fully realize how important it is that the Florist receive the very best strains obtainable and we spare no pains or expense in procuring them for him. Our seeds are as fine as can be grown by the most expert flower seed growers in this country and in Europe.

Wilt-Resistant Aster Seed

We recommend all Aster growers, whether they have been bothered with disease or not, to use "wilt-resistant" seed wherever possible. We feel sure that by sowing "wilt-resistant" seed many disappointments due to Aster crop failures will be eliminated. This year we offer "wilt-resistant" seed of thirty-six kinds. More will be ready next season. No grower, that we know of, would think of using ordinary Aster seed, after once having used "Wilt-Resistant."

QUEEN OF THE MARKET ASTERS

VICK'S BRANCHING ASTERS—WILT RESISTANT

The best known Florist variety, full flowers on tall, strong stems. Sown in the open ground and transplanted, they make strong plants, blooming at a season when prices are unusually high. This is the variety most florists use who grow seedling plants for sale.

VICK'S KING ASTERS

This Aster is entirely distinct from other kinds. Its long, narrow petals are folded lengthwise, giving the large, double flowers a bold, quilled and striking appearance. Blooms in the vicinity of Rochester in late August.

Mixed Colors. Tr. Pkg., 25c; 1/4 Oz., 40c; Oz., \$1.25.

SINGLE GIANTS OF CALIFORNIA

These single flowering Asters in their many splendid bright colors offer a pleasing change from the more common double kinds. Very fine in the garden and for cut flowers. We offer them in a mixture of all colors. Tr. Pkg., 30c; 1/4 Oz., 50c; Oz., \$1.75.

New Super Giant Los Angeles Aster

The first of a new race of early giant flowering, long petaled Asters. The flowers are larger than any others but very artistic due to the unusual curling and interlacing of the petals that gives a light feathery effect. The color of the flower is pure shell pink. The stems very long but strong. No disbudding is necessary, due to the non-lateral habit of the plant. Tr. Pkg., 35c; 1/4 Oz., 60c; Oz., \$2.00.
